Overview of program activities

Law enforcement capacity building and support

Themes:

- Prevention
- Detection
- Investigations & Prosecution
- Collaboration & Cooperation

USAID
FROM THE AMERICAN PEOPLE

Challenges

1. Time
2. Consultative process, building trust

USAID
FROM THE AMERICAN PEOPLE

Lessons learned

1. Still learning...
2. Invest in strong local and national partnerships
3. Incorporate/build local needs into the programme

WWF

A wide-angle photograph of a savanna landscape. The foreground is filled with numerous acacia trees of varying sizes, some with green foliage and others with bare branches. The ground is covered in dry, yellowish-brown grass. In the middle ground, a dense line of trees stretches across the horizon. The background shows a hazy, distant horizon line under a clear sky. A semi-transparent green banner is overlaid horizontally across the center of the image, containing the text "Thank you" in white, sans-serif font.

Thank you
