  <u>AGREEMENT</u>
- 8 + 7 YEARS
- SIGNED IN 2018
- GOOD FINANCING SECURED WITH REVENUE EARNING POTENTIAL WITH TOURISM DEVELOPMENT

- Each Park is different
- Multiple solutions of which co-management is one
- Often linked to available financing and stage of Park development
- More viable where there sufficient funding and joint vision

- Peace Parks support for past 15 years
- Keep reserve operational
- Anti poaching effort has resulted in wildlife recovery
- Funding secured for basic infrastructure and wildlife relocation
- = Tourism Product
- New Maputo Kosi Bay
- = Tourism Access
- Ready for tourism
- = Tourism investment

 Needed a long term vision – with higher financing and risk thus more committed agreement needed

- Strategic Business Plan developed
- Identify investment priorities ; funding needs ; sustainability plan
- Define shared vision on park development and future
- Enable financing to be secured

### MAPUTO SPECIAL RESERVE Case study

- Co-management Agreement proposed
- Decision impacted on larger Landscape planning Govt could not commit fully until this process was completed
- Could not be delayed tourism development needed
- Co-financing and Technical support agreement reached / 8 + 7 year term / USD 16m investment / Tourism focus / Reach break even within 10 year
- Potential to evolve into co-management agreement
- Key agreement points:
  - Appointment of staff
  - Decision making processes
  - Roles and Responsibilities
  - Strategic Business Plan

- Often needs a catalyst (financing, crisis, new decision makers)
- Existing relationships build trust and identify opportunities
- Need financing which requires business planning and shared vision
- Retains National Park status and Park Warden Authority
- Intention to support (win win) not take over but must ensure investment and reputation security
- Agreement progression can be phased
- Agreement provides a foundation for stability, attract further investment (donor, tourism etc)
